Rain Series — 106 drawings, 2021–2022

This selection presents 30 works from a larger body of 106 drawings.

A blooming series of emotional landscapes. Brushed acrylic gestures and finger-dragged oil pastels on paper — painted while listening to the rain fall, paused when the light broke through. Page after page, something simple, minimal even. Ritual repetition. Each color a character. Each drawing a scene in a slow and honest confessional. A gentle practice in deconstruction and healing while the wetting of Time passes by.

Bathe in what you have found.
